TECHNICAL SKILLS

Languages: C, HTML, CSS, JavaScript, SQL

Libraries/Frameworks: Tailwind, React JS

Developer Tools: Git/GitHub, VS Code

PROJECTS

House Hunt [↗](#) | [React JS](#)

- **Developed** a responsive landing page named **"House Hunt"** using **React.js** and **React Router**, ensuring smooth navigation and a seamless user experience.
- **Styled** the page with **plain CSS**, creating a clean, modern interface and optimizing for performance across various devices and screen sizes.
- **Implemented** reusable components and React hooks to manage state efficiently, enhancing overall application performance and maintainability.

FitTube [↗](#) | [React JS](#), [Tailwind CSS](#)

- Developed with **React.js** and **Tailwind CSS**, Fittube provides a modern, responsive design that enhances user experience and accessibility.
- Allows users to find exercises based on their needs and different body parts, with a well-organized catalog to help target specific muscle groups effectively.
- Integrates YouTube videos for each exercise, offering visual demonstrations and guidance to ensure users perform workouts correctly and efficiently.

Portfolio Website [↗](#) | [React JS](#)

- Built with **React** and **plain CSS**, the portfolio website showcases your projects, skills, and achievements with a clean, modern design that highlights your expertise and style.
- Features a **dynamic project gallery** where users can explore detailed case studies and examples of your work, demonstrating your capabilities and range as a developer.
- Includes interactive sections such as a contact form and links to your LinkedIn profile and other relevant platforms, facilitating easy communication and networking opportunities.
